Koala Wash

13131 Fort St, Omaha, NE

Koala Wash in Omaha, NE, located at 13131 Fort Street, Omaha. Opened in August 2025, this newly constructed site features three automatic wash bays, including two Wash World Double Barrel units and one Mark VII Choice Wash. Each bay is equipped with the G&G color wash lighting system and powerful 70hp Premier drying systems with elephant trunk side nozzles. Customers are served by Dencar EP13 cashless pay stations under Premier double-leg canopies with LED signage, along with Dencar Virtual Pay Stations at the four vacuum stations, which utilize Premier three-motor vacuums with stanchions and canopies. The facility also includes Airlift XRS interior mount doors and a Diamond H2O water treatment system with both softener and reverse osmosis capabilities. Wash performance is supported by the full McClean Solutions chemical line, including Ceramic and Graphene offerings. Planned future enhancements include the addition of an ABC Wash Systems Ultimate Detail and Towel Station. Representatives from Dencar and McClean Solutions will be present on the tour to answer questions and discuss current features and upcoming innovations. Owner: Axel Foley.
